

AMENDMENTS TO THE CLAIMS

1-9. (Canceled)

10. (Currently Amended) ~~A method, of adding to a first user profile corresponding to a first user a data set retrieved from a second user profile corresponding to a second user in response to a single request made by the first user, the request corresponding to a URL provided by the second user to the first user and including a second user identifier corresponding to the second user profile, said method comprising:~~

receiving the single request from the a first user to add a data set of a second user profile to a first user profile, the first user profile to be associated with the first user and the second user profile to be associated with a second user;

wherein the request is to be identified in response to receiving a URL access request by the first user to access URL, the URL provided by the second user to the first user, the URL having a second user identifier to correspond to the second user profile;

identifying the data set using the second user identifier to selectively retrieve the data set from the second user profile based on the second user identifier;

determining if the ~~single~~ request includes a cookie that is associated with the first user profile; and

adding the data set to the first user profile in response to determining that the ~~single~~ request includes the cookie that is associated with the first user profile.

11. (Original) The method of Claim 10, wherein the second user identifier is a parameter specified in the URL.

12. (Original) The method of Claim 10, wherein the data set comprises a name and a telephone number.

13. (Original) The method of Claim 10, wherein the data set is a vCard.

14. (Canceled)

15. (Previously Presented) The method of Claim 10, wherein the second user identifier comprises a user-ID corresponding to the second user.

16. (Previously Presented) The method of Claim 10, wherein the second user identifier comprises telephone identifying information corresponding to the second user.

17-31. (Withdrawn)

32. (Currently Amended) The method of Claim 10, further comprising:
requesting that the first user present authenticating information when the ~~single~~ request does
not include a cookie that is associated with the first user profile;
identifying the first user profile based on the authenticating information; and
adding the data set to the first user profile.

33. (Previously Presented)

34. (Currently Amended) ~~A system of adding to a first user profile corresponding to a first user a data set retrieved from a second user profile corresponding to a second user in response to a single request made by the first user, the request corresponding to a URL provided by the second user to the first user and including a second user identifier corresponding to the second user profile, the system,~~ comprising:

means for receiving ~~the single~~ a request from ~~the a~~ first user to add a data set of a second user profile to a first user profile, the first user profile to be associated with the first user and the second user profile to be associated with a second user;

wherein the request is to be identified in response to receiving a URL access request by the first user to access URL, the URL provided by the second user to the first user, the URL having a second user identifier to correspond to the second user profile;

means for ~~selectively retrieving~~ identifying the data set from the second user profile based on the second user identifier;

means for determining if the ~~single~~-request includes a cookie that is associated with the first user profile; and

means for adding the data set to the first user profile in response to determining that the ~~single~~-request includes the cookie that is associated with the first user profile.

35. (Currently Amended) The system of Claim 34, further comprising:

means for requesting that the first user present authenticating information when the ~~single~~ request does not include a cookie that is associated with the first user profile;

means for identifying the first user profile based on the authenticating information; and

means for adding the data set to the first user profile.

36. (Currently Amended) The system of Claim 34, further comprising:

means for creating a new user profile when the ~~single~~-request does not include a cookie that is associated with the first user profile; and

means for adding the data set to the new user profile.

37. (Currently Amended) A system, comprising:

a server to:

receive a ~~single~~-request from a first user to add a data set of a second user profile to a first user profile, the first user profile to be associated with the first user and the second user profile to be associated with a second user;

wherein the request is to be identified in response to receiving a URL access request by the first user to access URL, corresponding to a the URL provided by a the second user to the first user, the URL and including having a second user identifier corresponding to correspond to a second user profile,

~~retrieve-identifying~~ a data set from the second user profile based on the second user identifier,

determine if the ~~single~~-request includes a cookie that is associated with a first user profile corresponding to the first user, and

add the data set to the first user profile in response to determining that the ~~single~~ request includes the cookie that is associated with the first user profile.
